Notice Regarding School Designation for Regular Program Students Residing in Seton

Dear Parents/Guardians,

The Calgary Board of Education (CBE) is scheduled to open two new schools for the community of Auburn Bay during the 2022-23 school year. The opening of the new elementary school in Auburn Bay will have an impact on grade configurations and attendance areas for Seton families.

After careful consideration of the questions and comments we received at the virtual sessions, ideas board, as well as at the Area Office, a decision has been made to move forward with the following accommodation plan starting September 2022:

- K-5 students residing in the community of Seton will be re-designated to Cranston School
- Grade 6-9 students will be designated to Dr. George Stanley School

We believe this plan provides the best opportunity for the following CBE planning principles to be achieved:

- Students attend school closer to home.
- Program continuity from kindergarten to Grade 12.
- Equitable access for all students to quality learning environments and choice of programs.
- Space and resources are used effectively.

Planning principles are considered in making all CBE student accommodation decisions, and can be found in [AR1090](#).

Who will be impacted by these changes?

K-9 students living in Seton community.

Students attending Auburn Bay School:

- Seton students currently attending Auburn Bay School may remain at Auburn Bay School if they wish, however, transportation will not be provided. Transportation services from the Seton community to Auburn Bay School will end June 30, 2022.
- If you chose to remain at Auburn Bay School, please contact the principal, otherwise your student will be transferred to Cranston School through this process.

Students attending Nickle School:

- Grade 6-9 students will be designated to Dr. George Stanley School.

- Seton students currently attending Nickle School may remain at the school if they wish, however, transportation services from the Seton community to Nickle School will end June 30, 2022.

Will students need to register at the new school location?

There is no need to register. Students who are re-designated will automatically be designated to their new schools.

If students will be designated to a different school and would like to transfer from an alternative program or out of attendance area school, they will need to inform their current school and submit a Transfer Request Form. For more information, please visit: [Transferring between CBE Schools](#).

How will students get to school?

Students are eligible for transportation to their designated school if they live beyond the walk zone. Busing registration begins each year in the spring, then routes will be developed and families will be informed over the summer of the pickup/drop off locations and time.

Information regarding transportation services and fees is available on the CBE website www.cbe.ab.ca and at the schools.

What if I have more questions?

If you have a question that is not answered here or on our website, contact the school's principal. If you still have questions, please contact the Area 5 office at Area5@cbe.ab.ca or 403-777-8412.

This is a time of excitement and, understandably, some apprehension as well. We look forward to working with staff, students and parents to help make a smooth transition.
